BSc Physics (H)	Amity University Kolkata	9.25	2022
Senior Secondary	CBSE	80.4	2019

PROJECTS

Notes API BackendDec 2025 – Jan 2026

Tools: Go, Gin, MySQL, JWT, bcrypt

- Developed a production-ready RESTful backend using Go and Gin with a clean layered architecture (handler–service–repository) for scalability and maintainability.
- Implemented secure authentication and authorization using JWT and bcrypt, ensuring strict user-level access control across all CRUD operations.
- Designed efficient pagination with `limit`, `offset`, `total_count`, and `has_next` to support large-scale data retrieval.
- Integrated MySQL persistence with repository abstraction, environment-based configuration, structured logging, and rate limiting for improved reliability.

Blood Bank Management SystemSep 2024 – Oct 2024

Tools: HTML, CSS, JS, PHP, MySQL

- Developed a full-stack blood bank management system featuring secure authentication, user/admin dashboards, and automated blood request workflows.
- Built modules for donor and recipient management, blood inventory tracking, and request approvals using PHP and MySQL.
- Designed a responsive and user-friendly interface for seamless navigation across key features.

SKILLS

- Programming Languages:** Go (Golang), Java, C++, JavaScript (ES6+), Python
- Web Technologies:** HTML5, CSS3, JavaScript ES6+, REST APIs, JSON
- Backend Development:** Go standard library, Gin, Goroutines, Channels, Middleware, Basic Express.js
- Databases:** MySQL, PostgreSQL
- Tools & Platforms:** Git, GitHub, Postman
- Frontend:** ReactJS, DOM manipulation

AWARDS

- Shree Baljit Shastri Award — Amity University Kolkata**
Recognized for exemplifying human and traditional values, demonstrating respect for others and prioritizing the well-being and rights of others.

ACHIEVEMENTS

- NIMCET: AIR 656
- MAH CET: 99.64 Percentile
